To whom it may concern:

Re: Criminal Record Check with Vulnerable Sector Search

This is to confirm that _____ is registering/renewing their license to practice Physiotherapy with the Prince Edward Island College of Physiotherapy.

Physiotherapists assess, diagnosis and treatment musculoskeletal conditions/diseases/injuries and work in a variety of settings both publicly and privately. Physiotherapists can work directly or have the potential to have access to children, senior citizens and/or persons with a disability, thus, all members of the Prince Edward Island of College of Physiotherapy are required by law under the Regulated Health Professions Act (s. 4(1) and s. 12(2)(h)) to obtain a Criminal Record Check with Vulnerable Sector Search prior to registration. This is a legislative requirement as of 2020, going forwards any Physiotherapist licensed in PEI will be required at initial registration and every five years.

If you have any questions, please contact the Registrar at contact@peicpt.com.

Sincerely,

Jennifer Buote PT
Registrar, PEICPT
