## Welcome

It is a welcomed opportunity to share, that the College has been operating on much more 'normal' circumstances in the past few months. We are currently preparing for the AGM being held May 18, 2022. Following this event, the College will be in a position to expand the working plan and look for areas that need amending or to be created. If there are ever topics that you wish the College had more information on, please share. I tend to look to the larger Colleges for their material and direction, but they don't always align with our regulations. I look forward to the AGM and hope that this will be our last Zoom AGM!

Best,

Jennifer Kelly PT  
Registrar

## A Reminder!

The continuing education (CE) requirement is 30 hours in each three-year period preceding the application for renewal; a new applicant holding a license for less than three years, the requirement is 10 credit hours in the previous year. Please remember to update your CE in the HMS portal!

# Annual General Meeting

## May 18 via ZOOM

The PEICPT will collaborate with the PEI Physiotherapy Association to host their respective AGMs on May 18, 2022 from 6-8pm via Zoom. The PEIPA will host their meeting from 6:00-6:45. The PEICPT will host their meeting from 6:45-8:00pm. Within this time the College will provide a short presentation on the complaint process as dictated by the *Regulated Health Professions Act*. Links for the Zoom meeting will be sent out via email.

---

## Call for Questions

The PEICPT will offer a short educational presentation at the AGM on the complaint process. If any members have any questions, could you email them ahead of time in preparation for the presentation. Thanks!

---

## Updates for PT Residents

A few edits have been made to the HMS portal for PT Residents.

1. For those that have more than one Supervisor or change Supervisors, you can now add more than one Supervisory Agreement on HMS. Ensure you continue to email them to the Registrar, but for safe keeping and easy referencing please also upload them to HMS.
2. After completing the Provisional Practice Monitoring Tool every 8-12 weeks you can add this to the HMS portal. Like the Supervisory Agreement, please email it to the Registrar but also upload the Tool to HMS as part of your portfolio.

Both can be uploaded on HMS under Member Profile - Education - Update Information

---

## Values Project

The PEICPT has donated \$500 towards a national project to review the core professional values and code of ethical conduct in Canada for Physiotherapists. In the coming weeks, a survey will be emailed out by the College, we ask that you all take the time to respond. This survey will be sent to all licensed PTs in Canada, educational institutes and stakeholders. Providing feedback will give a much more robust, wholesome set of data for this project.

---

## Trisura renewal

A reminder to members who hold personal professional liability insurance with Trisura, the renewal date is June 30, 2022. It is quickly approaching, please ensure you renew your policy and update it on HMS. Thank you in advance.
